簡介：

內容以不同岩石作分類，選了香港四十個有趣味的地點，以淺白易懂的形式解釋地貌和岩石的來由，旁及地質歷史，讓讀者透過一段段精簡有趣的地理故事，輕鬆了解觸目可見的自然景致。

It bases on different kinds of rock to present in an easy and friendly way with a selection of 40 interesting sites across Hong Kong. Readers can understand how these landforms and rocks came about the related geological history. By reading short yet stimulating geological stories, readers can learn a great deal about natural sights that they often see in Hong Kong.
