

## 線上講座 - 泰國呵叻地質公園：由下而上的推動

多謝大家支持，是次「泰國呵叻地質公園：由下而上的推動」線上講座圓滿結束。再次多謝董佳榮博士的精彩分享，尤其是關於他們如何推動地質旅遊和利用「家庭 - 寺廟 - 學校」模式推動社區參與，很有啟發性。參加者亦反應熱烈，提出很多值得思考的問題，董博士也一一詳細回答。大家可到以下網址下載當天講義：

## Online Talk - Thailand's Khorat Geopark: the bottom up approach

Thank you for your support. The online talk 'Thailand's Khorat Geopark: the bottom up approach' ended successfully. Thank you Dr. Jaron Duangkrayom for the wonderful and inspiring sharing especially about how their geopark promotes geotourism and employs the 'home-temple-school' model to engage local communities. Responses from participants were overwhelming. Many thoughtful questions were raised while Dr. Jaron replied in great details.

You can download the PPT handout from the below website:

<http://www.rocks.org.hk/images/News/2020-07-19 AGHK online talk Khorat Geopark-the bottom up approach memo20200726163509.pdf>

The screenshot shows a Zoom meeting interface. At the top, there's a status bar with 'Recording...' and 'You are viewing Jaron Duangkrayom's screen'. The main content is a presentation slide with a light blue background on the left and a light pink background on the right. The word 'CONTENTS' is written vertically in white on the blue background. On the right, there are five numbered items in white boxes with blue borders:

- 01 About Khorat Aspiring UGGp
- 02 Geoconservation
- 03 Management Structure
- 04 Educational Activities
- 05 Community Activities and Products

A small video inset in the top right corner shows the speaker, Jaron Duangkrayom, wearing glasses and a dark shirt. At the bottom of the screen, there's a Zoom control bar with icons for Unmute, Start Video, Security, Participants (35), Chat, Share Screen, Pause/Stop Recording, Reactions, Support, and an End button.
